Archer Exchange

The Archer Exchange provides access to a wide range of supplemental value-add offerings, created by the Archer team and our trusted partners, to complement and enhance out-of-the-box capabilities of the Archer solution use cases .

The Exchange offerings can help you and your organization do the following:

• Enhance the breadth and depth of your Archer solutions.

• Adapt your risk program to keep pace with your organization's changing needs.

• Leverage functionality developed by Archer partners.

The Exchange includes the following categories of offerings:

• Accelerators to enhance the out-of-the-box Archer use cases.

• App-packs (application packages) to address specific risk issues for an industry, geographic area, or niche need.

• Content to augment and map risks to compliance requirements.

• Integrations for data exchange configurations to bring data into and push data out of the Archer Platform.

• Tools & utilities - functions to enable Archer administrators to enhance their Archer Platform implementation with additional capabilities.

Join the Archer Exchange Announcements group in the Archer Community to stay up to date with the latest information about the Archer Exchange.
